

The Ideal User of StartEFT

Your success in achieving top efficiency and acceptance of ACH Payments lies in your transaction management software. For this reason, Codemark developed StartEFT, with small- to medium-sized companies in mind. StartEFT makes it easy for such companies to offer ACH debits as their preferred method of payment.

StartEFT gives you real-time, online access to your payment information, 24 hours a day. You can also set permissions for multiple users, allowing you to manage access to specific software functions and to track the activity of each user.

Summary of Software Functions:

- **Software Activity**
