

Flight Line is One-Stop Shopping for Your Transportation Needs . . .

About the Company

Founded in 1981, Flight Line, Inc. is proud of its reputation for service and safety.

Flight Line Inc. Airport Express Service was founded in 1981 by James Dowd of Salem, New Hampshire, an airline pilot. In his own travels to and from the airport, he experienced firsthand the frustration of driving in city traffic, the expense of gasoline and parking, and wear and tear on his automobile. He wanted to provide a service to the public that would do away with those concerns.

Mr. Dowd began the company by providing van service to and from Logan Airport, but over the years the business has grown to include Manchester Airport and other levels of service, including an Executive Sedan Service for corporate transportation needs and a Bus Service for larger groups.

As a pilot, James Dowd knows full well the importance of transportation safety. Indeed, the company philosophy is based on a guarantee of safe transportation that is timely, convenient, and cost effective. Furthermore, Flight Line staff must be courteous, qualified and professional, and customers must *always* be satisfied.

Flight Line is a fully licensed and insured carrier, and runs under ICC authority.

Company headquarters is located on Raymond Avenue in Salem, New Hampshire.
